

Translation @FEG Dornbirn

Permanent translation technology is now installed in our Church (via a live audio stream):

- Work on most Android and Apple phones/iPads
- You will need earphones additionally.
- Currently we only translate to English.
- It is planned to translate every service from June 2016 onwards.

Get started (3 simple steps):

Step 1: Download “Barix Audio Signage” App

Step 2: Connect to open WiFi network called “FEG TRANSLATE” in the main hall.

Step 3: Start the App (it will automatically connect to the live stream)

For further assistance ask for a member of the project team:
Wernich de Villiers & Markus Mennel
